

I am writing to urge you to please allow FM translators to not lose priority to Low Power FM broadcast services. K-LOVE, a national, listener-supported radio network that utilizes FM translators provides wholesome, caring, family friendly broadcasting that is desperately needed in these days when FCC fines are becoming more and more common. Regardless of religious affiliation or faith, K-LOVE provides positive, encouraging music and messages that are uplifting to all listeners. In the community of Salem, if K-LOVE is no longer able to broadcast with FM translators, I may not be able to receive the station which I financially support and rely on for encouragement on a daily basis. As the head of a family, I enjoy the confidence of knowing that my child is listening to positive music and I do not have to worry whether he will hear violence or obscenity over the air waves when K-LOVE is on my dial. Thank you for your serious consideration of this request.
